

Air one serves the Boise community through education and encouragement every single day. It provied family entertainment that is so welcome when there so much filth floating through our airwaves. Air One can not be replaced by a LPFM that doesn't provide the same local support to community projects and charities. Keeping Air One in Boise Idaho is in the public's best interest as they give hope to those without, love to those with no one else, and a sense of family in a world that so many feel alone.
